Subject index to volume 1

abscess
  amoebic; ultrasonographic features 449
  liver; prognosis 463
adenomatous hyperplasia; transition to hepatocellular carcinoma 3
Aeromonas species
  faecal; in Balinese children 115
  in human diarrhoeal disease 237
AFP-positive cells; in rat liver 379
Alimentary Tract and Pancreas 45, 55, 61, 69, 87, 97, 115, 119, 237, 251, 257, 273, 281, 289, 297, 391, 437
antibody
  in vitro synthesis; to hepatitis B surface antigen 305
  auto-; in hepatocellular carcinoma 371
  antinuclear; in hepatocellular carcinoma 371
antigen
  delta; in liver tissue 33
  hepatitis B surface; carriers in Japan 33
α_1-antitrypsin; phenotypes in chronic active hepatitis 207
amoebic abscess; ultrasonographic features 449
anti-ulcer agents; on canine gastric mucosal haemodynamics 87
antiviral therapy; for chronic hepatitis B virus infection 169
arteriovenous shunts; 2D contrast echocardiography 457
aromatic hydrocarbons; metabolic activation 55
azodisalicylate; to treat active ulcerative colitis 257

Bacteroides fragilis; as metabolic activator 55
Bali; faecal *Aeromonas* spp. in children 115
Banti's syndrome; identified via obliterative portal venopathy 139
Budd-Chiari syndrome; clinical spectrum and surgical relief 359
blood flow; canine gastric mucosal, indomethacin-induced 87

campylobacter-like organisms; duodenal ulcer healing 69
carbamazepine hepatitis 159
cardiac chamber abnormalities; 2D contrast echocardiography 457
cholesterol; gallstone formation in the mouse 323
cirrhosis
  effect of nitroglycerin 201
  inhibitory effect of sera on natural killer activity 239
  serum procollagen-III-peptide levels 27
  small mass lesions 3
coarctation; of the inferior vena cava, surgical relief 359
coeliac disease; depressed lymphocyte responses to mitogens 281
colitis; active ulcerative, treatment with azodisalicylate 257
collagen synthesis; by rat hepatocytes in the presence of ethanol 15
Crohn's disease; assessment of using ^{99m}Tc-labelled leucocytes 297
culture; primary, of rat hepatocytes 15

delta antigen in liver tissue 33
delta infection in Japan 33
diabetes mellitus; gastric and oesophageal emptying in insulin-dependent 97
diagnosis
  of functional upper gut disease 273
  using obliterative portal venopathy 139
diarrhoea
  Aeromonas species in Balinese children 115
  role of *Aeromonas* species in humans 237
diisopropyl 1,3-dithiol-2-ylidinemalonate
  effect on AFP-positive cells 379
  effect on rat liver 379
Doppler flowmetric technique; in rats 347
drug reactions; hepatic 267
duodenal ulcer
  chronic; marital status and personality pattern 251
  effect of histamine and serotonin 437
  healing of and campylobacter-like organisms 69
  hypersomatostatinaemia 119
  pepsinogens 401
  prostaglandins for 471

echocardiography; 2D contrast 457
Editorial 1
Editorial comments
  hepatic drug reactions 267
  impact of molecular biology on gastrointestinal and liver disease 427
  magnetic resonance imaging 491
  obliterative portal venopathy 191
  precancerous lesions and hepatocellular carcinoma in man 79
  sclerotherapy in patients with non-cirrhotic portal fibrosis 489
endoscopy; repeated sclerotherapy for oesophageal varices 443

epidemiology
of hepatitis B surface antigen carriers in India 39
of hepatitis virus infection in Taiwan 221
ethanol; effects on collagen synthesis by rat hepatocytes 15
extrahepatic portal obstruction
cases of; with obliterative portal venopathy 139
compared to idiopathic portal hypertension 191

familial occurrence; of idiopathic portal hypertension 317
fibrosis
hepatic; ethanol induced 15
hepatic; reflected in serum procollagen-III-peptide 27
non-cirrhotic portal; 2D contrast echocardiography 457
non-cirrhotic portal; sclerotherapy 489
functional dyspepsia; effect of sulpiride 391
functional upper gut disease; diagnosis 273

gall-bladder
glycoprotein synthesis and secretion 323
sphincter of Oddi motor activity 213
gastric acid secretion 437
gastric cancer; human pepsinogens 401
gastric emptying; in diabetes mellitus patients 97
gastric haemodynamics; anti-ulcer agents and indomethacin 87
gastric ulcer
histamine and serotonin 437
prostaglandins 471
gastrin; effect of omeprazole on plasma levels 289
gastrointestinal
bleeding; management in liver disease 417
disease; impact of molecular biology 427
gastritis; human pepsinogens 401
glycoprotein synthesis by the gall-bladder during gallstone formation 323

hepatic drug reactions
predictability 267
to carbamazepine 159
hepatic fibrosis
ethanol-induced 15
reflected in serum procollagen-III-peptide levels 27
hepatic granulomas; reaction to carbamazepine 159
hepatic venous outflow obstruction; in chronic Budd-Chiari syndrome 359
hepatitis
carbamazepine-induced 159
chronic active; α_1-antitrypsin phenotypes 207
chronic B infection; antiviral therapy 169
chronic; serum procollagen-III-peptide levels 333
virus infection in Taiwan 221

hepatitis B surface antigen
carriers in India 39
carriers in Japan 33
in vitro synthesis of antibody 305
hepatocellular carcinoma
a clinicopathological study 129
serum auto-antibodies 371
the precancerous lesions in man 79
transition from adenomatous hyperplasia 3
histamine; and gastric acid secretion 437
holistic approach; to control of hepatitis-B reservoir 39
hypersomatostatinaemia; in duodenal ulcer 119
hypertension
cirrhotic portal; effect of oral nitroglycerin 201
idiopathic portal; familial occurrence 317
portal; studied with obliterative portal venopathy 457
portal; 2D contrast echocardiography 457
hypotension; as a result of oral nitroglycerin 201

idiopathic portal hypertension
compared with extrahepatic portal obstruction 191
familial occurrence 317
studied with obliterative portal venopathy 139
immune response; to live oral typhoid vaccine 61
immunohistological studies; of delta infection in Japan 33
immunoglobulin G; effect on natural killer activity 339
India; epidemiological survey of HBsAg carriers 39
indomethacin; induced changes in canine blood flow 87
inflammatory bowel disease; assessment of extent 297
iron and the liver 483

Japan; immunohistological study of delta infection 33

leucocytes; ^{99m}Tc-labelled, to assess inflammatory bowel disease 297
Liver and Biliary 3, 15, 27, 33, 39, 129, 139, 151, 159, 201, 207, 213, 221, 229, 305, 317, 323, 333, 339, 347, 359, 371, 379, 385, 443, 449, 457, 463
liver; and iron 483
liver abscess; what determines the prognosis 463
liver disease
impact of molecular biology 427
medical management of gastrointestinal bleeding 417
liver microvascular flow
in rats; quantified by laser Doppler technique 347
effect of sodium dehydrocholate 347
lymphocyte; depressed responses to mitogens 281

magnetic resonance imaging 491
marital status; chronic duodenal ulcer and personality pattern 251
medical management; of gastrointestinal bleeding in liver disease 417
metabolism; of neurotensin-like immunoreactivity 229
mitogens; depressed lymphocyte responses 281
molecular biology; impact on gastrointestinal and liver disease 427
morphine; effect on sphincter of Oddi motor activity 213

natural killer activity; inhibitory effect of sera 339
neurotensin-like immunoreactivity; role of liver in the metabolism 229
nicotine; effect on parietal cell mass of humans and rats 45
nitroglycerin; response to oral administration 201

obliterative portal venopathy
  a study 139
  editorial comment 191
oesophageal
  bleeding varices; sclerotherapy for 151
  emptying; in insulin-dependent diabetes mellitus 97
  varices; repeated endoscopic sclerotherapy with polidocanol 443
  varices; portal circulation after sclerotherapy 97
omeprazole; effect on pH and plasma gastrin 289
oral
  live typhoid vaccine; response 61
  nitroglycerin; response 201

pancreatic cancer 181
parietal cell mass; effect of smoking and nicotine 45
pepsinogens; human 401
personality pattern; chronic duodenal ulcer and marital status 251
pH; effects of omeprazole on intragastric 289
polidocanol; for repeated endoscopic sclerotherapy 443
polycyclic aromatic hydrocarbons; metabolic activation of 55
portal fibrosis; non-cirrhotic
  as a cause of oesophageal varices 443
  sclerotherapy 489
portal hypertension
  compared to extrahepatic portal obstruction 139
  effect of oral nitroglycerin 201
  idiopathic; familial occurrence 317
  studied with obliterative portal venopathy 139
  2D contrast echocardiography 457
portal venous pressure; effect of oral nitroglycerin 201
precancerous lesion; of hepatocellular carcinoma in man 79
preneoplastic lesion; in cirrhosis 3
procollagen-III-peptide; serum levels 27, 333
prostaglandins; for duodenal and gastric ulcer 471
pulmonary arteriovenous shunts; 2D contrast echocardiography 457

radioimmunoassay; of serum somatostatin 119
radionuclide angiography; to study portal circulation 385
rat hepatocytes; synthesis of collagen in the presence of ethanol 15
Reviews
  antiviral therapy for chronic hepatitis B virus infection 169
  human pepsinogens 401
  prostaglandins for duodenal and gastric ulcers 471
